

FAMILY #2

(updated March 2018)

These are the descendants of Salvador Gurulé, who was married twice. The microfilm record for his second marriage to Manuela Montoya identified him as Indian. In the 1750 census, Salvador is 27, Manuela is 20, and her mother is living with them.

Genizaro scholars Moises Gonzales and Bernardo Gallegos believe that Salvador is the son of Juan Antonio Gurulé (Pawnee) and his wife Maria. They are shown in the 1733 Genizaro Petition for the Sandia Tract with two sons and one daughter.

Note → each generation is indented...thus Salvador and Brianda are parents of all children with #1 by their name. Then, Francisco Juan and Maria Antonia are parents of all children with #2 by their name, and so on....
